S. R. THURMAN.

THE DISPATCH presents another hogored in this territory or wherever manly virtue, brilliant talents and impreguable integrity are valued among men. Whenever a stranger comes into his presence, instinctively he feels that he is in the presence of a man, true, brave, delicate-a man in every circumstance and situation of life, Thurman has lived most of his days here in this community and possesses to a remarkable degree the full confidence of the people. A lawyer of pro-Cheman is the great substitute over cate eloquent and abile, warm-hearted, generous and just. He has been in active political life for many years and no man in all broad Utah understands no man in all broad Utah understands better than he the political needs of this fair young state, which Thurman loves with a deathless love, or as he does the memory of his mother. Here again the democracy acted wisely, exhibited profound politics. They have given us a man in Thurman who will not only bring to the ticket profound strength but to the task of making the new constitution a profound ability as well as such measure of patriotism as found learning and ability. An advowell as such measure of patriotism as will insure the best possible work. Such men as Maeser and Thurman would never contemplate trickery or advantage in the fundamental law of the state, for either party, with the least degree of toleration. The best good of the people only will be served by them.

Thurman is one of the brightest of the many able young lawyers of Utah. He is ambitious and here is a field for his ability worthy of it. His is a high order of statesmanship. We do not hes'tate to declare in ad-We do not hes tate to declare in ad-advance that any constitution receiving his canction will be well-nigh fault less. He will stand for what is honest, clean, manly, and for all classes alike. He will know neither geography nor are brought about with reasonable faction in making the laws which are moderation. Hood's Sarsaparilla at-designed to serve and protect all tacks disease vigorously and never leaves the field until it has conquered. alike. This convention will furnish a field for his transcendent abilities which we have always coveted for him and we have no fears but he will prove equal to the great opportunities which John W. Judd, the well known English are to be thrown in his way. Frue as geologist, alluded to the changes in color steel himself he will ask for nothing for friends, class or combinations. His motto will be all for Utah and for all Utah. No friend may ask for special advantage, no enemy need fear unjust of light. Rubies change color in a cudiscrimination.

dividuality will be stamped upon our regain their original tint. The blue constitution from one end of it to the sapphire turns white, and the yellow other; and this means that it will be corundum crystal becomes green. broad, liberal, statesmanlike, honest and wise. His simple name on the list of delegates will be an earnest that the by local applications, as they cannot work will have all, aye! and more than reach the diseased portion of the ear.

There is only one way to cure deafness, and that is by constitutional remedies. the merits we claim for it. Now, Messieures democrats, it is your duty to go to work and give him the last outside vote to be had by honest and clean methods. I et us show him sound or imperfect hearing, and when sound or imperfect hearing, and when sound or imperfect hearing, and when that we love him and, have confidence it is entirely closed deafness is the rein him, and this is the way to do that, sult, and unless the inflammation can be taken out and this tub restored to be taken out and this tub restored to behind that of Maeser.

They are trying very hard to make political capital out of our Franky's mucous surfaces.

Is normal condition, hearing wingout destroyed forever; nine cases out of len are caused by eatarth, which is nothing but an inflamed condition of the mucous surfaces. power-dam scheme, but it works slowly and in a very hitchy way. Indeed Franky put off the inauguration of the scheme. There isn't enough of it in sight to tip the campaign. Ten, fifteen or twenty

years hence it may do, not now. The fact is Mr. Cannon is beaten at this moment and unless he is traveling about on power-dam syndicate money, he would save considerable by striking a bee line for home. Mr. Cannon is a sprightly little fellow, but he sadly ovarmatched himself when he walked out in front of Jo. Rawlins. Now as to that power-dam, it would be a great thing, but just now the democracy are making a light to keep syndicates, trusts and corporations out of the political arena, and with good hopes of success.

SENATOR JONES going on the e ump in Ohio for the democratic tickes, will distress no man in the United States more than it will the dear old man who edits the Salt Lake Tribune. been second to the good of the republica party. Ther, too, Jones knows more of the silver question and the attitude of the two parties on the question. He knows that the great body of democrats of the United States are free coinage, and from that source alone are we to look for the ultimate rehabilament of the metal.

What does the Tribune call "going over to democracy?" Our idea is when a man "goes over," he at once commences to write for the party "gone over to." This is what Senator Jones has done, and we don't care a stiver if he calls it by that name or not, so he helps elect the democratic ticket in Ohio.
